

# Why eIS

eIS Business Solutions has been providing technologically advanced business solutions to the mid-market for more than 15 years. Our software solutions for accounting, payroll, staffing, supply chain, and customer relationship management are some of the most advanced in the industry. The talented professionals that work at eIS are dedicated to helping you select the right solutions for your company, as well as guide you every step of the way through your implementation. Our applications can help you streamline your process, and help you make savvy business decisions, however it's our accommodating staff that makes the entire process of implementing a new system a breeze.

Our personalized approach offers individual attention to determine which solution best suits your company. It's the same personalized approach that makes our ongoing customer support so unique long after your installation.

## The eIS Business Solutions Difference

eIS believes that innovative products and unparalleled customer service differentiate us from our competition. We offer a simple yet proven formula for success:

**Talented People + Realistic Solutions + Timely Delivery = Measurable Results.**

To ensure these measurable results, eIS takes the time to assess and understand each clients' short and long-term goals. Our team works extensively to identify each businesses unique processes, and specific circumstances to ensure a tailored solution that will fit their individual needs and enhance they're overall business success.

Before you purchase your next software solution, take the time to see what eIS offers.

- **The Difference**—A personalized approach to providing business software applications for more than 15 years.
- **The People**—It is the high-caliber of our staff that makes all the difference. Our specialists take the guesswork out of implementing your software package, leaving you with only the benefits of our ground-breaking solutions.
- **Methodology**—With so many avenues to guide you in the selection, installation and operation of our software solutions, we offer service you won't find anywhere else from professionals who can tailor the applications to fit your needs.

Through the assessment process, eIS provides our clients with:

- **Insight** – to understand how a fully integrated business solution can help them achieve their goals
- **Innovation** – to integrate and assemble solutions that fit their business
- **Information** – to help them make intuitive and accurate decisions
- **Instruction** – to help them use the solution to its fullest potential.

### What our clients are saying....

"After we implemented our new software, we saw immediate benefits. It was amazing how quickly our accounting processes were streamlined."

- Jeanette Pena, Senior Accountant, Joan Rivers Worldwide

Robert Smith and eIS Business Solutions had the answers we needed. Basically, our company has been able to remain in business because of the solution they recommended."

Dennis Schurgin, Owner, TC Petroleum

Our new software solution makes it much easier to capture information for detailed business reporting because [the data] all exists within the system."

Jim Halliday, Chief Financial officer, Joan Rivers Worldwide

"Before contacting eIS, we had problems with inaccurate financials. It took forever to get reports from our system."

Jeff Emery, CFO, Gateways Hospital and Mental Health Center
